DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 08, 2007 has been entered.

Response to Amendment

2. Applicant's amendment filed on June 08, 2007 has been considered and entered in full.
3. Applicant's arguments with respect to claims have been considered and are persuasive and therefore, all rejections on the respective claims have been withdrawn.

Allowable Subject Matter

Reasons of Allowance:

4. Claims 1 - 10 are allowed.

The following is an examiner's statement of reasons of allowance:

Both the instant invention and the closest prior art Matsuura, U.S. Patent 6,052,205, are directed to image coding by performing entropy coding on the wavelet coefficient for each of

the bit-planes and both further discloses sequentially discarding a portion of the coded data in a least significant order (see Matsuura, col. 9, lines 44-55). However, the prior art does not teach “sequentially discarding a portion of the coded data in a least significant order from the second memory based on the size of the coded data portion corresponding to each of the bit-planes or (coding pass) stored in the first memory” as recited in claims 1, 4 and 10. Therefore, claims 1, 4 and 10 are allowed. All other claims depending on claims 1, 4 and 10 are allowable at least by dependency on claims 1, 4 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
